### Nordic Beech

Width: 5" (129 mm)  
Thickness: 7/8" (22 mm)

Nordic Beech is created by topically-staining Beech with a sheer tint of white. The added coloring gives Nordic Beech its unique and fresh appearance - subtle and neutral.

### Ash

Width: 5" (129 mm)  
Thickness: 7/8" (22 mm)

Ash is a luxurious looking wood. Its strong graining pattern displays striking character and rich golden tones varying from very light to medium brown.

### Nordic Ash

Width: 5" (129 mm)  
Thickness: 7/8" (22 mm)

Adding a white hue to Ash softens the species' natural amber appearance. The hearty graining pattern remains vivid beneath the added coloring.

## Mind, body and Soul+Collection

Junckers believes that creativity and expression can be a part of performance and fitness flooring. Warmer wood tones can provide the ideal healing backdrop for wellness centers, yoga studios and Pilates.

More vibrant hues can offer the right amount of pizzazz for Zumba and other exhilarating activities in group exercise areas. When sports flooring subfloor systems are combined with innovative colors and species of Junckers unlimited, high performance color pallet becomes reality.

Colored sports flooring is available together with Junckers Clip, BluBAT, UnoBAT and DuoBAT systems.
